# Vimasco Corporation

## Low Emitting Materials Complying with LEED™ IEQ Credit 4.1 and 4.2

For your convenience, we have shown the VOC level of each Vimasco product as compared to the VOC limit allowable under the LEED™ standard.

*The following Vimasco adhesives comply with LEED™ Credit 4.1*

<i>Product</i>	<i>Product Name</i>	<i>Product VOC (g/L less water)</i>	<i>LEED™ VOC Limit (g/L less water)</i>
713	Lagging Adhesive	0	80
714	Lagging Adhesive	26	80
727	Laminating Adhesive	0.5	80
760	Hi-Temp Fibrous Adhesive	0	80
136	Adhesive	0	80
795	Duct Adhesive	40	250

*The following Vimasco coatings comply with LEED™ Credit 4.2*

<i>Product</i>	<i>Product Name</i>	<i>Product VOC (g/L less water)</i>	<i>LEED™ VOC Limit (g/L less water)</i>
WC-1	Weather Barrier Mastic – PVA	51	150
WC-5	Weather Barrier Mastic – Vinyl Acrylic	0	150
WC-7	Weather Barrier Mastic – Vinyl Acrylic	0	150
ThickKote	High Solids General Purpose Mastic	12	150
749 VaporBlok™	Vapor Barrier Coating	39	150
739 BrushSeal™	Commercial Grade Vapor Barrier Coating	0	150
708	Insulation Coating	45	150
Protectokote	Acrylic Weather Coating	48	150

All Vimasco products are manufactured in Nitro, W.Va.; therefore depending on where the project is, usage of these materials might apply towards LEED™ Credit MR 5.1 for use of regional materials.
