SECTION 6 — ACCIDENTAL RELEASE MEASURES

For large spills, contain the liquid and shovel up material for removal by vacuum truck. Neutralize residue with dilute acid, flush area with water, followed by liberal covering of sodium bicarbonate. Small spills are readily washed away with water. High pH is harmful to aquatic life. **Spills will be very slippery.**

SECTION 7 — HANDLING AND STORAGE

Thoroughly cleanse hands after handling. Launder contaminated clothing before reuse.
Protect from freezing.
Do not use empty containers for potables or edibles.
Store indoors at temperatures of 40°F to 90°F. Do not store at elevated temperatures, as containers could pressurize and rupture
Spills may be slippery.
Do not store in aluminum containers, do not use aluminum transfer lines or fittings.

SECTION 8 — EXPOSURE CONTROL / PERSONAL PROTECTION

Exposure limits: Not available

In restricted ventilation areas, use approved chemical respirator, avoid inhalation of airborne particulates by using an approved respirator. General (mechanical) room ventilation is expected to be satisfactory. Supplementary local exhaust and respiratory protection may be needed in poorly ventilated spaces, or evaporation from large surfaces when spraying.
